Press release from: [Match Set Love](#)

The new Home Freckle Collection from Match Set Love to bring happiness to your walls in the hottest colours of the season.

Just as freckles are naturally beautiful and synonymous with summer, fun and happiness, the new range of freckled small vinyl stickers from Match Set Love will bring the summer inside this season and refresh your interior quickly and easily.

The newly introduced range consists of 14 different and complimenting wall sticker designs as well as matching printable wall art posters. These small design details make a big impact and customers will have a ton of fun choosing their favourite combinations.

These wonderfully fresh, high-quality decals and stickers are removable; any décor can be changed up as the mood strikes. The ease to remove also makes them the perfect solution to rental homes and seasonal décor. The trendiest colours have been hand-picked, so they will complement any modern home.

“The most popular are black for the scandi look and then gold, copper and mint as well as blush pink and light blue which represent the colours of the year”, says designer Liezel Glaubitz.

The printable wall art posters have a strong theme of wanderlust & cheekiness with modern graphic and trending elements. The poster downloads are available in A3 and A4 formats.

Match Set Love is a design studio which focusses on interior elements to help create inspiring spaces. Liezel Glaubitz the creative mind behind the brand has recently moved from Johannesburg, South Africa to Erfurt, Germany.
