

Get the look

- Stick to a neutral colour palette of black, varying shades of grey and white (your food will pop against this backdrop).
- Use silver cutlery and see-through glassware.
- You can either use a wooden table or cover a table in white linen.
- Blackboard trays or under plates will offer a Lovilee twist.
- Less is always more ... no one wants to knock over an array of glasses while trying to eat.
- Details. Details. Details. Think name cards and bunting behind the chairs to add a personal touch.
